ADR Monitoring Centre (AMC)

Under Pharmacovigilance Programme of India (PvPI) an Adverse Drug Reaction (ADR) monitoring centre is functional since 2015 at Dept. of Pharmacology, Pt. JNM Medical College, Raipur, Chhattisgarh INDIA.

The PvPI is an Indian Government Organization (Ministry of Health and Family Welfare) which mission is to safeguard the health of the Indian Population by ensuring that the benefit of use of medicine outweighs the risk associated with its use.

Our main Aim is to collect the ADRs, from patients, Healthcare Professionals and send it to National Coordination Centre (NCC), PvPI and Indian Pharmacopoeia Commission (IPC). The purpose of PvPI is to collect data, analyse it and use the inference to recommended informed regulatory interventions.

AMC Coordinator:

Dr. Usha Joshi (Professor & HOD)

AMC Pharmacovigilance Associate

Mr. Venu Anand Das Vaishnav
